NEEDLING

Needling treatments: Dermapen/ Mesotherapy/Redermalization

- Needling is used to stimulate production of collagen and elastin in the skin.
- Treats fine lines and wrinkles
- Tightens, lifts and rejuvenates the skin
- Reduces acne scars, surgical scars and stretch marks
- Minimizes pore sizes

Dermapen starting price from	R 1 400
Professional Serums additional charges	R 170-340
Redermalization (by MD only)	SQ
PRP - "Vampire Facial"	

Platelet Rich Plasma is an autologous process (your own blood plasma). The plasma is rich in stem cells and growth factors. This helps with skin rejuvenation on the skin's surface, as well as below. This treatment is combined with skin needling or mesotherapy, which also stimulates the production of collagen and elastin.

BOTOX AND FILLERS

Botox, Fillers etc. administered by certified MD's.
Book for appointment
